

More About Us

JXL Media

Our Vision

Introduction

JXL Media was created from a shared passion for capturing moments through media. Lex and Joe- a photography and videography duo who bonded over our love for storytelling through a lens.

A Little Deeper

What started as a shared creative interest quickly turned into something bigger. We began attending events together, photographing airsoft events and teams. Capturing the energy, action, and community at those events helped shape JXL Media into what it is today.

While we love the fast-paced side of event photography, we also enjoy capturing portraits that highlight personality and connection. From individuals and families to pets and special moments, our goal is to create images that feel genuine and lasting.

For us, JXL Media isn't just about photos and videos- it's about preserving the moments that people want to remember the most.
